DETAILED ACTION

1. Amendment and response filed by applicants dated July 30, 2007 have been entered.

Claims 2, 14-23 have been canceled. Claims 1, 3-13, 25-27 and newly added claim 36 are pending. Claims 24, 28-35 stayed withdrawn.

2. The objection of claim 2 is moot in view of the cancellation of the claim.

3. The objection of claim 7 is maintained for reason of record. Claim 7 is still depending on claim 8. correction is recommended.

4. The rejection of claims 1, 3-13, 25-27 under 35 USC 103(a) over Cuny '332 in view of Yamamoto '257 is maintained for reason of record and also applicable to newly added claim 36.

The gist of applicants argument is that the primary reference disclosed position isomers for the same utility as the instant application. The secondary reference although is analogous art disclosed the substituents at the same position but having "other" features not disclosed by the instant claims. It has been long set forth by the court that position isomerism is *structural prima facie* see In re Dillion, In re Mehta recited in the previous office action. Applicants provided mere argument without factual support. A person having ordinary skill in the art has good reason to pursue the known options such as positional isomerism within his or her technical grasp. This endeavor has been supported by analogous art to lead to the anticipated success. Therefore, the outcome of such modification is out of ordinary skill and common sense in absence of unexpected results.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1625

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
